

Take a piece of 12 by 12 and cut the following pieces

- 12 by 4 inches
- 10 by 3.5 inches
- 8 by 3.5 inches

Score the 12 by 4 midway to make the cover. Decorate the front and inside.
Remember the middle on the inside will be hidden.

Take the 10 inches by 3.5 inches card and score every 2.5 inches. Fold to make a concertina of 4 ATC size panels. Decorate these as ATCS.

For the pop up stand use the 8 inches by 3.5 inches card. Score along the middle (at 1.75 inches). Mark 2.25 inches along the edges from each corner. Score the diagonals as shown and fold like this:.

Mark the middle of the inside fold. Add glue to both triangles and stick the stand in place.

Now add the ATC strip. Add glue in the opposite corners of the opened out stand.

Stick the ATCs in place.

Add more decorations as required...
